Mitring Machine EH Digital

MORSØ-EH Digital

A fully automatic electric/hydraulic mitring machine

MORSØ-EH Digital is a fully automatic, electric/ hydraulic mitring machine with a two-hand release built on and digital screen. The two-hand release makes the machine absolutely safe as it is impossible to operate the machine and touch the knives at the same time.

With MORSØ-EH Digital you achieve the clean smooth cut as with all other MORSØ Machines. The MORSØ-EH Digital has the same characteristics as the MORSØ-EH, but all adjustments are built in the digital screen:

- adjustment of length of stroke (three different length)
- adjustment of cutting cycle with two cut for narrow mouldings
- adjustment of cutting cycle with more cuts for wider mouldings
- adjustment for hard or soft wood
- automatic switch off of the machine after a certain time.

The MORSØ EH Digital is excellent for repetition works, as:

- it is as fast as a double mitre saw
- the cutting waste drops into a waste chute
- the working procedure creates no dust
- the noise level is below 70dB.
- needs no compressor

The MORSØ-EH Digital is delivered with:

Two-hand release operation, safety guard, sliding longitudinal stop, second stop, waste chute, extension table for the left side, measuring scale up to 1500 mm, adjustable fence, adjustable and automatic rebate supports and clamping cylinders.

The MORSØ-EH Digital is available with single phase or three phase motor, voltage to your requirements.

Technical data for Morsø-EH Digital	
Double Mitre	45°
Single Mitre up to	90°
Cutting width max.	100 mm
Cutting height max	180 mm
Measuring scale up to	1,500 mm
Motor single or three phase	1.1 kW
Capacity of Pump	7 litres/min.
Working pressure	80 bar
Power transmission	660 kilos
Tank contents	8 litres
Net Weight	135 kilos

Distributor:

**Three different models of the
electric/hydraulic machine:
MORSØ-EH • MORSØ-EHT •
MORSØ EHXL**

All models available with Digital Screen
